

Perfect Fitting SUMMER COATS

VESTS.

We have already sold more than all last season, and last Saturday we received our second stock, which we marked at the same low figures.

STRAW HATS

Lowest prices in the city.

KLEINMAIER BROS. STRICTLY ONE PRICE.

THE MARION DAILY STAR

Published Every Evening Except Sunday

W. G. HARDING.

TERMS: By Mail, \$4 per Year in Advance. Delivered by Carrier, 10 Cts. per Week. TUESDAY, JULY 2.

URBANA's free postal delivery went into force Monday and she is proud of it. Marion is fully entitled to such a system, but there doesn't seem to be a great desire to secure it.

The governor of Louisiana has warned Sullivan and Kiffin not to attempt to come into the state, and it is asked the governor what he would do supposing the pugilistic gentlemen ask recognition on the ground that they are generous patrons of his numerous lottery schemes.

The Associated Ohio Dailies have taken a stand in favor of raising the standard of foreign advertising in local papers, and propose to make a concerted endeavor to correct the unjust partiality shown the outside advertisers. The move is an equitable one and should meet the cooperation of all local papers.

The press can do the cause of Christianity much good by refusing to publish such things as Mrs. Witting, the Pennsylvania murderess, expressing the hope on the scaffold of meeting her victims in heaven. When our religion will permit a woman to deliberately murder her children, and then hope to meet them in a better land, there is something wrong and the best publicity the better.

The much-talked-of Mrs. Mackay has brought suit for libel against two English papers for stating that her mother was a washerwoman. It is said that washing clothes in America is quite as creditable as spending money ostentatiously in Paris and London. But what must become of our American notions of the equality of birth when we are "libeled" abroad with the accusation that our foremothers "did the washin'?"

The Illinois railroad is contesting a claim for damages made by a passenger injured in an accident to a moving train. The ground of contest is that the passenger was traveling on a pass. The passenger who was a state senator. Of course the pass was given without a consideration, but it will be difficult for the railroad officials to make believe there was no expectation of return, as is the object of the contest. The railroads are not in the habit of dealing out passes in this way.

The Queen of England has inflicted upon herself an amount of labor unknown to her heretofore. Her majesty has departed from an old rule, something extraordinary, by the way, and will hereafter receive at her own drawing rooms women divorced upon their own application and without suspicion of wrong on their part. A flood of applications followed the announcement, but the Queen will not act upon these until the testimony in each case is examined to determine without doubt that the applicant is blameless.

A Chicago firm has succeeded in making houses that are portable, and that are as readily erected and torn down as tents. To those fellows who want to change residences with the seasons, and whose means will not allow them to own a house in town and also in the country, this will be a matter of great convenience. In the winter he can reside in town, and in summer when the men of wealth are betaking themselves to their country houses he can fold up his house and go out in the bucolic breeze, with as many as the best of them.

12th Annual Bee-Line Excursion.

At the urgent request of quite a number regular patrons, the Bee-Line and Big Four will arrange for one of their popular, personally conducted Excursions to Kansas, Colorado, Salt Lake, Rocky Mountains and Pacific Coast, under the management of the experienced excursion agent, Mr. D. Jay Collier. In order to accommodate all and give ample time to prepare for a visit to the far west, Tuesday, July 23rd, has been selected as the date leaving Cleveland, Cincinnati, Columbus, Dayton, Springfield and Indianapolis. The Bee-Line agents at each point named, will be provided with full instructions and can give full information regarding rates, routes, etc. Address them or D. Jay Collier, Bee-Line Pass. Agt., 173 Superior Street, Cleveland, O.

NOTE.—Ask any of our former patrons how the Bee-Line takes care of their excursionists.

To Our Readers.

We beg to call your attention to the lines of the "Great and Only" Chicago, Milwaukee and St. Paul railway. They now own and operate over 5500 miles of road, extending through Illinois, Wisconsin, Minnesota, North and South Dakota, Iowa and Missouri. It is the shortest line and best route from Chicago to Council Bluffs, Omaha, St. Paul, Minneapolis, Kansas City and intermediate points. Their equipment is unsurpassed. Vestibuled trains, Chair cars, Pullman's finest sleeping cars, and the finest dining cars in the world. Meals 75 cents. If you contemplate a trip west, northwest or southwest of Chicago, you will make no mistake by purchasing your ticket over the Chicago, Milwaukee and St. Paul railway. All ticket agents have them. Write to or call on Wm. Kelly, Jr., traveling passenger agent, room 25, Clinton block, Columbus, Ohio, for rates of fare, Maps, time tables, etc., furnished free.

His Fearful Fall.

It was long ago decided that a pin had only to be had enough and it therefore became very good, and in point is an instance which is told of a Boston artist resident abroad. He came home one night after his wife had retired, and in his endeavor to light the gas, pulled off much after match, as supposed, from a card of letters, scattering them with out effect other than the loss of his temper. At length he gave it up and found a fresh lot of matches, with which he succeeded in getting a light. In the morning his slumber was rudely broken by the voice of his better half, who had risen and was making her toilet. "What in the world," she exclaimed, "have you been doing to my comb? You have broken more than half the teeth out of it." "Yes, my dear," he answered unhesitatingly, "and that was because tooth was mightier than reason." It must be decided that there was nothing more to be said after that.—Boston Courier.

Fourth of July.

The general excursion arrangement on the C., C. & I. railroad for July 4th, 1889, to and from all stations, are as follows: All persons presenting full fare one-way local tickets purchased and dated July 3d or 4th, will be permitted to return on the same, without extra charge, until the 5th inclusive. For full information as to time of trains, etc., call on R. A. Dondale, agent, Marion.

A Duty to Yourself.

It is surprising that people will use a common ordinary pill when they can secure a valuable English one for the same money. Dr. Acker's English pills are a positive cure for sick-headache and all liver troubles. They are small, sweet, easily taken and do not grip. Sold by H. C. Hoberman & Co.

All Youngstown rolling mills have shut down for repairs. As the American United scale went into effect July 1, the manufacturers gain a little more time before signing. No trouble is anticipated, however, and all the firms probably will sign the scale. Shut-down will last from one to three weeks.

Fourth of July Excursion Rates.

On July 2d and 4th, the C. H. V. and T. railway will sell local excursion tickets to all points on its lines at one fare for the round trip, children over 5 and under 12 years of age, one-half the adult rate. Tickets good returning until July 5th.

Is Life Worth Living?

Not if you go through the world a dyspeptic. Acker's Dyspepsia Tablets are a positive cure for the worst forms of Dyspepsia, Indigestion, Flatulency and Constipation. Guaranteed and sold by H. C. Hoberman & Co.

A Close Competition.

"My papa's got some new horses and a new boat brought him." "Well, my papa's going to buy a new yacht." "And my mamma's got a lovely new piano." "Well—well, my mamma's got a cook that has stayed two weeks."—Life.

Tot Tot

Spring Post (handing a roll of paper to the editor)—There, sir; I think there's some stuff in that poem. Editor (glancing at it)—There is indeed, my boy. It's all stuff. Good morning.—Troy Times.

Married.

UNDERWOOD.—HUSBAND.—At the residence of Rev. A. D. Matthews, by the same, June 25th, Mr. Sabin A. Underwood and Miss Loretta A. Hipsler, both of California.

Loose's Red Clover Pills Cure Sick.

Headache, Dyspepsia, Indigestion, Constipation, 25c per Box, 5 Boxes for \$1. Sold in Marion, O., by W. B. Faye, Druggist.

Siftings argues that it is only very good men who grow indignant and wrath when some one affirms there is no hell.

A Pittsburg paper says sight drafts are probably so called to distinguish them from the kind you can't see but which give you a cold.

An Atchison philosopher argues that every man is sometimes a bait on some other man's hook.

It is a funny fact to the Baltimore American that the air of society always makes a green man turn red.

It is found that this is the time of the year when the sugar barrel is hardly a match for the strawberry box.

STRAY BITS

A copy of Audubon's "Birds of America" sold in London recently for \$215.

The month of May, in England, 1889, will probably take rank as the wettest on record.

Persia has granted to Russia the exclusive right to build a railroad from the Caspian sea to the Indian ocean.

The Indians in the United States who can read Indian languages number 10,027, and 21,408 can read English.

The Vatican has decided that the astronomical observatory is to be begun at once, at an estimated cost of 1,000,000 francs.

Human beings are still being sold in the famine-stricken districts of China. A child under 10 brings from a dollar to a dollar and a half.

Artisan wells have proved of immense advantage in the dry districts of California, and have been worth millions there to fruit growers and others.

The people of Bonn have purchased the house in which Beethoven was born, with the intention of converting it into a museum of objects, illustrating his life and works.

To harden small tools, rub soap upon the surface, and in the threads of taps and dies, then heat to a cherry red and immerse in salt water—a handful of salt to half a pail of water.

The proceedings of the Japanese parliament are reported verbatim by means of a stenographic system original in Japan. The characters are written in perpendicular rows from right to left.

In spite of the report that the prestige of the Derby is waning, the crowd there this year was the greatest ever known, and the proportion of Americans therein was also greater than ever before.

Jerusalem seems now to be a rapidly growing city. This is due to the great number of Jews who are flocking there yearly. They now number 30,000, more than the Moslem and Christian population combined.

Thodore Urban, an antiquarian and student of Columbia, Pa., says he has evidence that this continent was settled about 650 years after the deluge, that the Indians were highly civilized and used tools of metal.

The three vineyards of Clos d'Estournel, Clanton Montrose and De Fonny, France, have just been purchased by the proprietors of the St. Estephe vineyards for \$180,000. The Clos Vougeot vineyard is likewise for sale.

The "penny in the slot" machine must have reached its culmination in that invented by Mr. Englebert, which, after the prescribed rule has been complied with, will take your photograph, finish it, and drop it out already framed.

On the last Sunday in May the number of visitors to the Paris exposition from S. A. M. to 6 p. m. was 201,112 paying and 13,164 sub-septiles and contributors furnished with season tickets. In the evening there were 32,222 additional visitors.

This summer a stone tower of about the size of the tower in Mount Auburn will be erected by Professor Hensford to mark the site of the thirteenth fortification which he believes covered on the Charles river, near Waltham, and which he believes to be Norwidge, the forgotten.

Investigation has shown that terra cotta bricks and blocks best resist the action of fire. Next to these are fire resisting materials concrete. For buildings intended to be fire proof, the best materials are iron work in case in terra cotta, with floor brick work in roof and floor.

These stockholders of the Cashier at Narragansett Pier have recently paid \$50,000 for an estate which they have added to the grounds. The location is reported very prosperous, both financially and socially. There are seventeen hotels and eighty "cottages" at the Pier.

It is stated that not less than 99 per cent. of all the flower seeds sold in the United States are raised abroad, chiefly in Germany. In that country immense tracts of land are devoted to the growth of flowers for seed, and the business is carried on in the most careful and systematic manner.

The French are now manufacturing the 144-gm. with which the whole army is to be equipped, on a reduced scale. Saint Etienne is one of the largest firearms producing centers in the world, but two more mammoth establishments like its largest ones have been erected at the Lyons arsenal.

A French paper states that at Cherbourg a short time ago two sailors were seen 9 in the morning till 5 in the evening under water at the depth of ten metres in a submarine torpedo boat, without experiencing the least inconvenience. They were constantly in communication by telephone with a communications station.

The largest artificial body of water in the United States is said to be near Glen, New York. It is a third larger than the Cane-mough reservoir was, and is said to be able to break its banks at any time. This reservoir was formerly used to feed the old Genesee Valley canal, but is now used only by fishermen.

Cromation is apparently growing in favor with the aristocratic classes in England. One of the great landed owners of London and the descendant of an illustrious line of dukes (name not given) is reported to have made a donation of \$5,000 to the Cromation Society of England, and his body is to be burned after death.

The effect of the London book sales during last year is to show that books, under certain conditions, are a profitable investment. The early edition of "Pickwick" brought double the original prices. The first Huskins, or Sir Richard Burtons, the early editions of Swift, Burns and Browning all sell well. Investments in very high priced books, such as the Caxtons, have been profitable in a proportionate degree.

THE ANIMAL KINGDOM.

At Huntsville, Ala., a pink and white chicken was hatched a short time ago.

A stray dog having been seized with rabies in Tottown, Pa., a Hungarian kicked the life out of it.

The skeleton of the largest elephant ever killed in India has been found to measure 10 feet 6 inches high.

A cat in the outskirts of Lima, O., is utilizing a large bird's nest in a tall tree for a sleeping place on pleasant nights.

The cat a fox takes of her cubskin been seen from a list of provisions found together about an "early." It comprised 10 rabbits, 20 rats, 2 pheasants, 1 wild duck, 2 fowls, 1 snipe, 2 woodcocks, 32 moles, total, 70 head.

A Newfoundland dog in California which lost its master was found no less than three times trying to dig open his grave. After the last visit the body, for some reason or other, was disinterred, and the dog upon sniffing the coffin took to the woods and thereafter refused all food.

The whale, which belongs to the mammals, no doubt holds the palm for thickness of skin. At some parts of the body the skin is only two inches thick, but in many places its pelt is fully two feet in thickness. The skin of the whale is the substance usually known as blubber, and in a large specimen will weigh at together more than thirty tons.

Are You Skeptical?

If so we will convince you that Acker's English Remedy for the lungs is superior to all other preparations, and is a positive cure for all Throat and Lung troubles, Croup, Whooping Cough and Colds. We guarantee the preparation Sold by H. C. Hoberman & Co.

Loose's Red Clover Pills Remedy. Is a positive specific for all forms of the disease. Blind, Bleeding, Itching, Ulcerated, and Protruding Piles.—Price 50c. Sold in Marion, O., by W. B. Faye, Druggist.

We are told that a man who starts out on a wild-goose chase should not wonder if others make game of him.

Puck thinks if we smart people never made any mistakes there would be pretty lean picking for the fools.

Caution to Mothers.

Every mother is cautioned against giving her child laudanum or paregoric; it creates an unnatural craving for stimulants which kills the mind or the child. Acker's Baby Soother is especially prepared to benefit children and cure their pains. It is harmless and contains no Opium or Morphine. Sold by H. C. Hoberman & Co.

—Dr. B. Mincer, the eminent optician of Detroit, Mich., who is now a resident at Marion, will visit every town in this county. Any one suffering with weak eyes, or eyes afflicted by inferior glasses, should not fail to see him. Orders left at the postoffice will be promptly attended to. No extra charge for examination, or for visiting patients at their homes. On Saturdays and Sundays he can be found in his office at residence, No. 25, Silver street.

Now that battles are going out of fashion, Puck hopes that the Indians will leave off their war whoops.

A westerner says he never talks to a man of the pithos of an empty cradle when there is a crying baby about.

Pimples on the Face.

Denote an impure state of the blood and are looked upon by many with suspicion. Acker's Blood Elixir will remove all impurities and leave the complexion smooth and clear. There is nothing that will so thoroughly build up the constitution, purify and strengthen the whole system. Sold and guaranteed by H. C. Hoberman & Co.

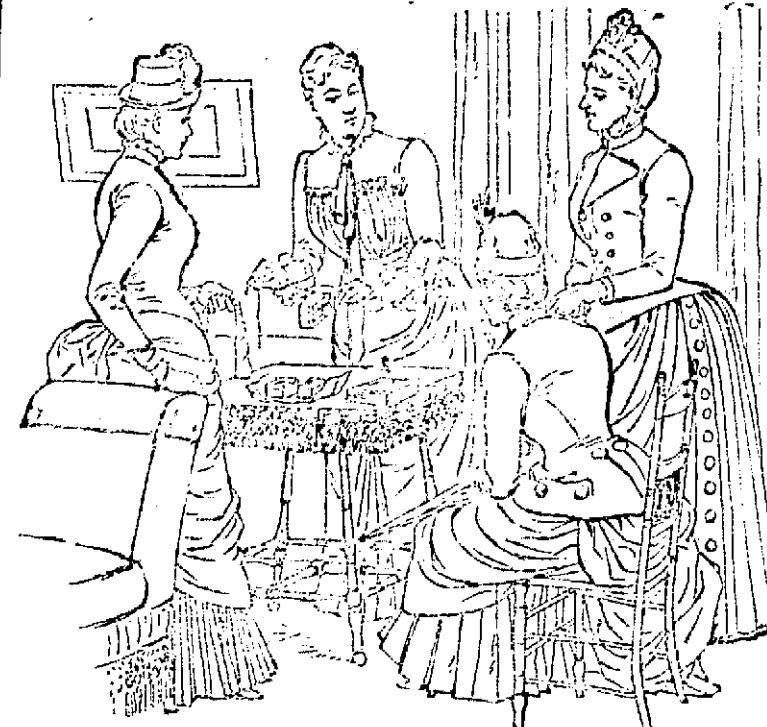

FOR MEN ONLY!

POSITIVE CURE FOR LOSS OF FAIRING MANHOOD: General and HERVED DEBILITY. Weakness of Body and Mind; Effects of Excess in Diet or Young Menstruation; BRUISES, INFLAMMATION, GONORRHOEA, STRICTURE, etc., cured in a day. Immediately restoring the system to its normal condition. Sold by H. C. Hoberman & Co., Buffalo, N. Y.

MASSILLON COAL

BEST in the MARKET

Prendergasts.

The cakes of Ivory Soap are so shaped that they may be used entire for general purposes, or divided with a stout thread (as illustrated) into two perfectly formed cakes for toilet use.

A WORD OF WARNING.

There are many white soaps, each represented to be "just as good as the Ivory"; they ARE NOT, but like all counterfeits, lack the peculiar and remarkable qualities of the genuine. Ask for "Ivory" Soap and insist upon getting it.

Spring Disorders

Shattered nerves, tired brain, impure blood, debilitated system, all are the natural outcome to the spring. A medicine must be used, and nothing equals Paine's Celery Compound. We let others praise us—you can't help but believe it. It is the only medicine that does not have it. It is the only medicine that does not have it. It is the only medicine that does not have it.

Paine's Celery Compound

It is prescribed by physicians, recommended by druggists, endorsed by millions of people, and is the only medicine that does not have it. It is the only medicine that does not have it. It is the only medicine that does not have it.

Purifies the Blood.

It is the only medicine that does not have it. It is the only medicine that does not have it. It is the only medicine that does not have it.

\$1,000 Reward!

FOR EVERY CASE OF Nasal or Post Nasal Catarrh

—THAT— DR. LIVINGSTON'S POSITIVE CURE FOR CATARRH

Every bottle is guaranteed or money refunded when our rules and instructions are carried out in full. The only catarrh medicine of merit, and the only company that gives you this guarantee. This is to show the public that we do not come before the people with a worthless medicine, but one of merit. Do not let your druggist sell you a bottle unless it has our guarantee on it. I can say for you, I can say for you, I can say for you.

CHANGES IN THE FLAG.

FACTS NOT GENERALLY KNOWN ABOUT THE STARS AND STRIPES.

What the Chinese Thought of the United States Flag—A Battle Between British and Americans in Ireland—How the Four Stars Will Be Added.

(Special Correspondence.) WASHINGTON, July 1.—When Independence day of next year comes round the United States will have a new flag. Four new stars are ready to take their places in the Union, and four stars are to be added to the blue field. In fact, this has been already done, and the navy department is now sending out to all maritime powers the following circular:

origin has never been cleared, and for a long time the flag has been a mystery. The flag was thus formed with the thirteen stars:

When Vermont and Kentucky came in the fifteen stars were arranged in this awkward fashion:

In 1827, when there were thirty-one states, many of the flags in general use contained but thirty stars, in five rows of six stars each. The custom was also formed in one large star, as suggested by the following flag:

Other forms were a lozenge of stars, a diamond, an anchor, the letters "U. S." formed of stars, and a very large flag floated in New York city had a crude representation of the American eagle made of stars in the canton.

Probably it will never be known who devised the Union of stars. It was one of the happiest ideas ever known in heraldry or flag making, but the identity of the person to whom credit for it is due has been hopelessly lost. There is nothing in the records of congress nor in the voluminous mass of correspondence on the subject giving a clue to the actual designer. During the first months of the revolution each state had its own flag. It was the flag of the American army had a flag at Lexington, and it is pretty well settled that it had none at Bunker Hill. A very common device of that period was the rattlesnake flag with the inscription:

DON'T TREAD ON ME.

The origin of this device has been ascertained. England used to transport hither many of her convicts, and after several murders had been committed by these unwelcome immigrants a writer in Ben Franklin's paper suggested, in satire, that the colonies retaliate by sending to England a cargo of rattlesnakes. The idea was taken up and made the emblem of the flag. Franklin defended the device on the ground that the rattlesnake is found only in America, that he was considered by the ancients a symbol of wisdom, that his bright, his eye signifies vigilance, that he never attacks without first giving warning, and that his rattles, while distinct, are so firmly joined that they cannot be separated, and that as he grows older his rattles increase in number. Indeed, this idea was made use of in a device which represented a snake with nine joints, his head marked "N. E." (New England), and the remaining sections "N. Y.," "N. J.," "Pa.," "Md.," "Va.," "N. C.," "S. C.," and "Ga."

In 1755 Ben Franklin went to the camp at Concord and made a flag which contained the king's colors for a canton, and thirteen stripes, alternating red and white, for the remainder. This was quite generally used, though not sanctioned by law. It was some months later, in January, 1776, that the grand Union flag was raised over the Cambridge camp by George Washington.

This was substantially the flag which congress officially adopted in June, 1777, and it was this flag that Mrs. Jones, of Philadelphia, made for Gen. Washington from sketches furnished by him. In fact, the weight of evidence is in favor of George Washington as the designer of our national ensign. The thirteen stripes may have been suggested by various persons by the East India company's flag, or the United Netherlands' banner, or the flag of the British colonies, or the flag of the thirteen colonies. There is much reason to believe, too, between the flag and the Washington coat of arms. In heraldry the star contains six or more points, but Washington's flag has stars of five points, as did his armorial shield, those stars being known to heraldry as mullets. Was this an accident?

Mrs. Jones, who made the first flag, was, oddly enough, a Quaker, and her husband was for the government for many years, and her family after her. Mrs. Jones's declaration of independence was celebrated by unfurling of many flags which bore the stars and stripes, but while this is quite possible, since it was six months before she had made the flag, for Gen. Washington, the statement is not supported by any history.

It is said the first time the official flag ever floated over a battlefield was at the Brandywine, and days after its promulgation by congress in Philadelphia. There is some doubt as to where belongs the honor of first hoisting the stars and stripes over a battleship, but John Paul Jones seems to have been the fortunate man, and when he hoisted the flag at the mouth of the Bay of Biscay, Richard, and captured the Berwick on the coast of England, the effect was not much less than that of the Alabama by the Kearney, nearly a hundred years later. The flag first floated over a foreign fortress in January, 1778, when a small force from an American ship captured Fort Mifflin, in the island of St. Providence.

When the Chinese first saw the flag they called the craft flying it the Kaw-chung-pien ("flower flagship"). They were greatly impressed with the beauty of the ensign. When the stars and stripes first floated in the shadow of the crescent at Constantinople, 1820, the Turks declared they had never heard of such a country as the United States of America. Perhaps they hadn't, but they heard of it since.

It is not generally known that a battle was once fought in Ireland under the American flag. In 1790 a Boston contractor went to Londonderry to build a bridge, and when he had finished it he opened it to the people of the town, after first decorating it with the stars and stripes. For some reason he was ordered to close the bridge, and on refusing a company of British soldiers went to the bridge. It was a fierce contest, in which five or six persons were killed and many wounded.

But now the flag has grown to forty-two stars, and it is quite likely that within five years this number of stars will have to be provided for. Then, if Canada links her fortunes with this country, and Cuba and Hayti are annexed, we shall have to arrange the blue field with a half dozen or more stars in addition to the forty-seven, thus verifying Commodore Walker's prediction that the time will come when the blue field will have to be enlarged or the stars made so small as to destroy their effectiveness in the ensignable.

Another suggestion which reached the commodore was for a six-pointed star, thus arranged:

For this design the advantage was also claimed that new stars to the number of ten or a dozen could be easily added without changing the character of the design. Commodore Walker, however, decided this was too radical a departure from the flag that has floated over us for more than a century, and clinging to the less showy arrangement in horizontal lines.

Still another suggestion, made by a Massachusetts man whose ancestors fought in the Revolution, and who places a very high estimation on the importance of the thirteen original states, was for a circle of thirteen large stars containing twenty-nine smaller ones.

Among the remaining suggestions were those which arranged the forty-two stars in pyramids, in ovals, in shields, in regular circles, the Maltese cross, etc. In all probability Commodore Walker's decision will give general satisfaction.

It is a singular fact that there has always been a good deal of uncertainty about the American flag. The mystery concerning its

origin has never been cleared, and for a long time the flag has been a mystery. The flag was thus formed with the thirteen stars:

When Vermont and Kentucky came in the fifteen stars were arranged in this awkward fashion:

In 1827, when there were thirty-one states, many of the flags in general use contained but thirty stars, in five rows of six stars each. The custom was also formed in one large star, as suggested by the following flag:

Now's Your Chance!

REDUCTION!

INDIA SILKS!

As the season is advancing we will close out our stock of India Silks at a greatly reduced price.

20 dress patterns of 20 yds. each for 50c, worth 75c.

20 dress patterns of 20 yds. each for 68c, worth 85c.

We have also a large line of plain colors in cream, pink, blue, brown, etc., that we are selling at 46c.

Don't fail to take advantage of this opportunity of buying an elegant dress cheap.

If you want a nice dress for evening wear, or a handsome, cool dress for street wear, an India Silk is by far the most stylish dress goods.

Come in and see us at once.

197-13 JOHN FRANK.

Miss Royt Earnest has returned home after a pleasant visit of a couple of weeks at Delaware, the guest of Miss Alice Clark.

One of the commercial men has sent to a Philadelphia copy of rules he found in one of the "leading hotels" in Oklahoma, and as they differ somewhat from the familiar rules which every one meets with outside of Oklahoma, we find them printed in the North American.

If the bugs are troublesome, you'll find the chloroform in a bottle on the shelf.

Centigrams to bed with their heads on will be charged extra.

Three cups at the door means there is a murder in the house and you must get up.

Please rub your name on the wall paper, so we know you've been here.

The other leg of the chain is in the closet if you need it.

If that hole where that pane of glass is out is too much for you, you'll find a pair of pants back of the door to stuff in.

The shooting of a pistol is no use for any alarm.

If you're too cold, put the blanket over your bed.

Crossed lamps, extra, candles free, but they mustn't burn all night.

Don't take the wall paper to light your pipe with. Nuff of that already.

Guests will not take out their trunks in the mattress.

If it rains through that hole overhead, you'll find an umbrella under the bed.

The rats won't hurt you if they don't have each other cross your face.

Two men in a room must put up with one chair.

Please don't empty the wastebasket out of the pillows.

Don't kick about the roches. We don't charge extra.

If there's no towel handy, use a piece of the carpet.

Shot by His Brakeman. [Diagnosis Special.]

At Marion, June 29, a special from W. A. Valley, Miss. says: Frank Laub, net an engineer on the Illinois Central, was shot and fatally wounded by Fred Smith, a colored brakeman, at Grenada this morning. Smith did not put on the brakes to stop Laub, and the latter crashed him. Smith replied with a rifle epithet, whereupon the engineer jumped from his engine with a coat-pick and chased the negro around the engine. Smith drew a pistol and fired, the ball striking Laub in the forehead. He is still alive, but with no prospect of living. Smith escaped, and has not yet been captured.

This is supposed to be the same person of the name who was formerly engineer on the C. and A. road, and who deserted his wife at this place. His wife, however, had supposed Laubnet to be dead and remarried.

Discouraged Business.

A short session of court was held Monday, at which the case of Cuthbert Haberman vs. Philip Haberman was considered. Catherine prayed for a divorce on the plea of desertion, Philip having left her seven years ago. The decree was granted and the maiden name of Kate restored.

The case of Sarah E. Olds vs. Oscar H. Olds was taken up and continued until next term. In the meantime Mrs. Olds is given the custody of the three children, with the allowance that they visit the father one week in four.

Court adjourned until next Monday, when an old waterworks question will come up for hearing.

Tourists.

Whether on pleasure bent or business, should take on every trip a bottle of Syrup of Figs, as it acts most pleasantly and effectively on the kidneys, liver and bowels, preventing fevers, headaches and other forms of sickness. For sale in 5c and 25c bottles by all leading druggists.

Another Wreck.

Speed to Duty Struck.

LANCHING, Va., July 2.—Fast bound express on the Norfolk and Western railway wrecked this morning near this place. Thirty persons are reported killed.
